Simplify Licensing. Automate it.

E-Licensing makes licensing simpler. Automated licensing solutions offers numerous benefits to citizens as well as governments.

Benefits for Citizens

1. SIMPLE APPLICATION PROCESS
Online tools save citizens trips, reduce front counter waits, and speeds up processing time.

2. LICENSE DETAILS AVAILABLE ONLINE
License details, applicant information, and activity history can be published online to information whenever they need.

3. PUBLIC SAFETY & STANDARDS ENFORCED & PUBLISHED ONLINE
Information can be published online to ensure public safety and disclosure of information to citizens. They can read and review the information online.

4. ONLINE RENEWALS
Citizens can renew licenses online, without having to travel to the Office. They can also track the status and get access to other related information they need.

5. EDUCATION & CERTIFICATION REQUIREMENTS ENFORCED DURING INITIAL ISSUANCE & RENEWALS
All documents submitted by the applicant are verified thoroughly at the time of renewal, thus ensuring that all documents meet the certification requirements.

Benefits for Governments

1. IMPROVE EFFICIENCY
Documents can be accessed without duplicating data, allowing for a faster process and work flow.

2. LESS STORAGE SPACE
Doing away with paper documents means cutting down on storage space drastically.

3. REDUCE COSTS
Save money wasted in keeping and maintaining paper records.

4. GUARANTEE SECURITY
Cloud storage is more secure, guaranteeing the right stakeholder has access to the right information. The citizens, or government decides who gets to see which information.

5. CENTRALIZE DOCUMENTS
Store all documents centrally and improve accessing, reducing the time otherwise wasted in collating documents from different departments.

Benefits of AMANDA Mobile Field app

for Governments

RUNS ANYWHERE
Makes it easy for inspectors to conduct inspections in the field. Doesn't require internet connection. Inspectors can store and access data locally.

1. CREATE FOLDERS IN THE FIELD
Inspectors can create and follow up on violations in the field.

2. VIEW LICENSE DETAILS
Inspectors can access all important license details from anywhere; available cross platform, on any Android, iOS, or Windows device.

3. MANAGE LICENSES
Inspectors can rely on maps and GPS, find license locations, and pinpoint violation locations.

4. ENHANCE PUBLIC SERVICE
Citizens can use the app to find licensed professionals and businesses.

Benefits of Apps for Citizens

1. MANAGE CODE VIOLATIONS
Licensed individuals can manage license, applications, renewals, and fees.

2. REPORT ISSUE VIA SIMPLE INTERFACE
Citizens have the power to report any complaints against professionals and businesses. The app is simple to use and understand, and can be used very effectively.

3. LOCATE ISSUE GPS
Citizens and applicants can view license data using a map interface.

4. VIEW PAST VIOLATIONS
Citizens and applicants can view inspection history to see past violations. Government can decide which information should be shared with the public.

B2B CONTENT IDEAS

THAT WILL HELP BRING IN MORE CUSTOMERS

Any prospect goes through different stages of decision before making a choice. In order to turn your prospects into buyers, you need to create content that appeals to them at all these different stages.

The 3 major stages any prospect goes through are

First stage
Understanding the problem

Content ideas:
1. Ongoing statistics and trends.
2. Analysis of what is new, and why it matters.
3. Examples of the best in the industry works.
4. Guides for opportunity.
5. Assessments of prospect needs.
6. One-on-one education.

Second stage
Look for solutions that can help solve the problem

Content ideas:
1. Ongoing statistics and trends.
2. Analysis of what is new, and why it matters.
3. Examples of the best in the industry works.
4. Guides for opportunity.
5. Assessments of prospect needs.
6. One-on-one education.

Third stage
Decide which product to choose

Content ideas:
1. Pricing.
2. Trials and product demonstration.
3. Implementation of plans and requirements.
4. Delivery examples.
5. Vendor comparisons.

Useful tip: Use "How to" articles
When prospects search for solutions online, the mostly search related by the problem they are facing. 'How to' followed by the problem. 'How to' articles thus help pull in prospects and future customers.
